This evening seeks to honour the Four Directions and the balance of the masculine and feminine. To experience that in these spiritually awakening chaotic times we are here to walk and to work together.

For we are the One's we have been waiting to meet! In these times of remembering and awakening to the deep spirituality of our Indigenous ancestors to be the peace we yearn to see!

We are hearing the wisdom of the voices of all in the circle being equal. And the Elders calling us to see and to experience that this is the way of Global Respect that is all inclusive.
